

Data Sheet

Valve station
Type **ICF 15/20 EVRAT**

Flanged connections for fast and simple retrofit of solenoid valves and strainers (EVRA/FA)

Based on advanced technology the ICF EVRAT retrofit valve incorporates three functions in one housing, which can replace the widely used direct coupled FA + EVRAT, as a drop-in solution.

The two function modules - solenoid valve and manual opener are identical to the function modules in the ICF 20 valve station concept thus facilitating logistic and service.

The solenoid valve is an assisted, servo operated valve for liquid, suction and hot gas lines with ammonia and fluorinated refrigerants.

Supplied as a complete assembly, it is fully tested at high pressure and its functions are tested under factory controlled conditions.

Features:

- Applicable to HCFC, non flammable HFC and R717 (Ammonia). The use of ICF EVRAT with flammable hydrocarbons is not recommended
- Designed for industrial refrigeration applications for a maximum working pressure of 42 bar/610 psig
- Low temperature steel housing
- Low weight and compact design
- The solenoid valve ICFE 20 is designed to open - and stay open at a pressure drop of 0 bar thus suitable for lines with low pressure drop
- UL approved
- Classification: DNV, CRN, BV, EAC etc.
To get an updated list of certification on the products please contact your local Danfoss Sales Company.

Portfolio overview

Figure 1: ICF 15/20 EVRAT

Table 1: Portfolio overview

Description	Values
Valve body/connection material	Steel
Connection type	Flange
Direction	Straightway
Max. temperature range	-40 °C – 105 °C (-40 °F – 221 °F)
Max. working pressure [bar/psig]	42 bar (610 psig)
Packing format	Single pack

Media

Refrigerants

Applicable to HCFC, non flammable HFC and R717 (Ammonia). The use of ICF EVRAT with flammable hydrocarbons is not recommended. For further information please contact the local Danfoss sales company.

New refrigerants

Danfoss products are continually evaluated for use with new refrigerants depending on market requirements.

When a refrigerant is approved for use by Danfoss, it is added to the relevant portfolio, and the R number of the refrigerant (e.g. R513A) will be added to the technical data of the code number. Therefore, products for specific refrigerants are best checked at store.danfoss.com/en/, or by contacting your local Danfoss representative.

Product specification

Design

The main components of the ICF EVRAT are:

- Housing
- 3 predefined function modules:
 - Filter ICFF 15
 - Solenoid valve module ICFE 20/ICFE 20H
 - Manual opening module ICFO 20

Surface protection

The external surface is zinc-TLP treated to provide corrosion protection according to EN ISO 2081:200. Additional on-site corrosion protection is recommended.

Connections

The ICF EVRAT drop-in valves matches 2 existing flange connections:

Valve station, Type ICF 15/20 EVRAT

ICF 15 EVRAT fits directly into the EVRA/T 10/15 + FA flange arrangement ICF 20 EVRAT fits directly into the EVRA/T 20/25 + FA flange arrangement

Figure 3: ICF 15 EVRAT

Figure 4: ICF 20 EVRAT

Dimensions and weight

Figure 5: This example indicates the maximum dimensions for the ICF EVRAT

Ordering

Code number selection

ICF EVRAT valves are intended as drop-in replacement valves.

To identify the correct code number simply select the same size as the replaced valve.

Table 8: Code number selection

Type	Solenoid	Kv [m ³ /h]	Cv [USgal/min]	Code number
ICF 15 EVRAT	ICFE 20	2.4	2.8	027L4517
ICF 20 EVRAT	ICFE 20	3	3.5	027L4518
ICF 20 EVRAT	ICFE 20H	3.7	4.3	027L4519

Coils

	110	50	018F6811	22	
	220 – 230	50	018F6801	31	

NOTE:

For other coil types please refer to the technical leaflets for **EVRA** or **AKVA** valves.

Certificates, declarations, and approvals

The list contains all certificates, declarations, and approvals for this product type. Individual code number may have some or all of these approvals, and certain local approvals may not appear on the list.

Some approvals may change over time. You can check the most current status at danfoss.com or contact your local Danfoss representative if you have any questions.

Table 12: Valid Approvals

Type	File name	Document type	Document topic	Approval authority
ICF 15 EVRAT	TAA0000085 Rev. 2	Mechanical - Safety Certificate	-	DNV GL
	SA7200	Mechanical - Safety Certificate	-	UL

Online support

Danfoss offers a wide range of support along with our products, including digital product information, software, mobile apps, and expert guidance. See the possibilities below.

The Danfoss Product Store

The Danfoss Product Store is your one-stop shop for everything product related—no matter where you are in the world or what area of the cooling industry you work in. Get quick access to essential information like product specs, code numbers, technical documentation, certifications, accessories, and more.

Start browsing at store.danfoss.com.

Find technical documentation

Find the technical documentation you need to get your project up and running. Get direct access to our official collection of data sheets, certificates and declarations, manuals and guides, 3D models and drawings, case stories, brochures, and much more.

Start searching now at www.danfoss.com/en/service-and-support/documentation.

Danfoss Learning

Danfoss Learning is a free online learning platform. It features courses and materials specifically designed to help engineers, installers, service technicians, and wholesalers better understand the products, applications, industry topics, and trends that will help you do your job better.

Create your Danfoss Learning account for free at www.danfoss.com/en/service-and-support/learning.

Get local information and support

Local Danfoss websites are the main sources for help and information about our company and products. Find product availability, get the latest regional news, or connect with a nearby expert—all in your own language.

Find your local Danfoss website here: www.danfoss.com/en/choose-region.

Spare Parts

Get access to the Danfoss spare parts and service kit catalog right from your smartphone. The app contains a wide range of components for air conditioning and refrigeration applications, such as valves, strainers, pressure switches, and sensors.

Download the Spare Parts app for free at www.danfoss.com/en/service-and-support/downloads.

Coolselector®2 - find the best components for you HVAC/R system

Coolselector®2 makes it easy for engineers, consultants, and designers to find and order the best components for refrigeration and air conditioning systems. Run calculations based on your operating conditions and then choose the best setup for your system design.

Download Coolselector®2 for free at coolselector.danfoss.com.
